

Wireless Connectivity
Solutions for Small
and Medium Businesses

CONNECTIVITY PROVIDES IMMEDIATE ACCESS TO INFORMATION AND IMPROVES EFFICIENCY THROUGHOUT THE BUSINESS. Small and medium businesses can move fast to integrate technology into their business process and experience the benefits. Wireless technology rapidly enables connectivity solutions without the time and cost associated with installing fiber or wired equipment.

Wireless solutions from Cambium Networks provide end-to-end connectivity that can be deployed indoors and outdoors to connect businesses with suppliers and customers. Configuring and maintaining the network is easy with our cnMaestro™ management system that simplifies installation and provides a complete view of network performance. Enhance your customer experience and integrate closer with suppliers by creating a completely connected operation with field-proven reliable wireless connectivity from Cambium Networks.

Benefits

- **Complete Wi-Fi Coverage** – Blanket indoor and outdoor areas with high-speed Wi-Fi connectivity.
- **High Capacity** – Leverage one IP-based network where it is needed to provide streaming video, data transfer, and voice services.
- **Secure** – Separate business and customer traffic while providing secure communications.
- **Affordable** – Provide an attractive return on investment when compared with leased lines, fiber, copper, or other solutions.
- **Reliable** – Count on Cambium Networks solutions that are proven to work in any climate or application, including more than 7 million wireless broadband modules deployed in 150 countries around the world.

Proven Solutions

- Enterprise-class **802.11ac Wave 2 Wi-Fi** access layer networks for high-speed access
 - Indoor Wi-Fi networks
 - Outdoor hotspot and Wi-Fi networks
- **Long-range point-to-point** wireless backhaul to reach remote locations
 - Licensed microwave and unlicensed backhaul
- **Wide-area point-to-multipoint** wireless distribution to cover broad areas
 - Licensed and unlicensed wide-area networks
- **Single pane of glass** network management
 - Bird's-eye view of field area network
 - Rapid on-boarding and provisioning of new nodes
 - End-to-end performance and fault management
 - Centralized firmware and software management

The Cambium Difference

- **Affordable Quality** – Minimize the total cost of network ownership with one IP-based wireless network comprised of licensed and unlicensed components that can be rapidly deployed and perform reliably with minimum maintenance cost.
- **Sustainability** – Operate for years with solutions from a supplier with a proven track record of stability and sustainable product evolution.
- **Reliability** – Deploy wireless broadband with confidence that it will work right the first time and continue to work 24/7 over the long haul.
- **Scalability** – Connect up to thousands of individual locations with a synchronized network that enables RF frequencies to be reused throughout the network to provide the highest level of connectivity in the least total amount of spectrum.
- **Spectral Efficiency** – Provide the highest amount of information transfer in the least amount of scarce spectrum with industry award-winning throughput.

ABOUT CAMBIUM NETWORKS

Cambium Networks is a leading global provider of wireless broadband solutions that connect the unconnected. Through its extensive portfolio of reliable, scalable and secure narrowband, Wi-Fi, and wireless broadband point-to-point (PTP) and point-to-multipoint (PMP) platforms managed by cloud- and On Premise software, Cambium Networks makes it possible for all service providers; enterprises; government and military agencies; oil, gas and utility companies; internet service providers; and public safety networks to build powerful communications networks, reach users from 250 kilometers across mountain tops down to the last meter to their devices and intelligently manage their infrastructure through end-to-end network visibility and actionable analytics. Headquartered outside Chicago and with R&D centers in the U.S., Ashburton, U.K., and Bangalore, India, Cambium Networks sells through a range of trusted global distributors.
