

Cambium Networks™

Express Wi-Fi by Facebook

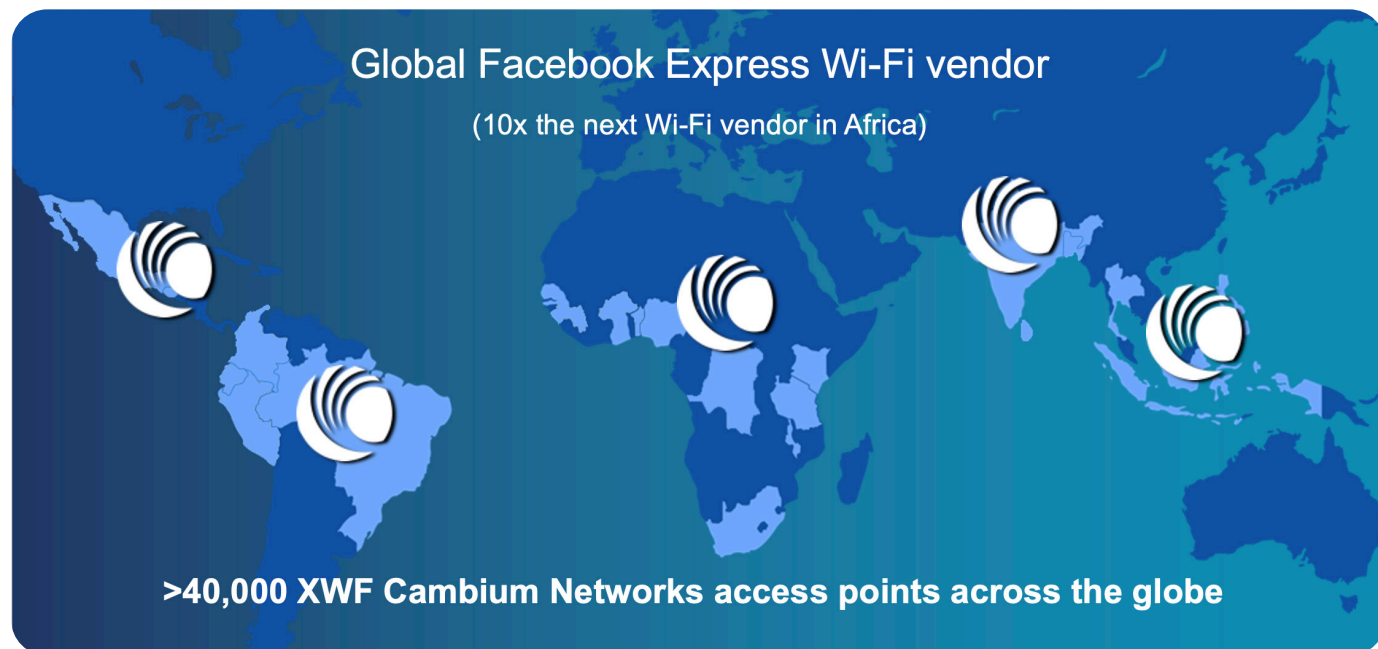

Bridge the Digital Divide with a Positive Business Case

Connect people in underserved markets and improve the local economy and the quality of life. Fixed wireless and Wi-Fi technology from Cambium Networks enable the rapid deployment of Wi-Fi connectivity to connect the unconnected and under-connected while delivering a positive business case.

Express Wi-Fi (XWF) from Cambium Networks and Facebook offers low-cost Wi-Fi networks that connect people who have little or no access to the internet. The solution includes full monetization and business management from the Facebook XWF cloud portal interfaced with the cloud-based network management from Cambium Networks, plus high-efficiency, cost-effective Wi-Fi access points (AP).

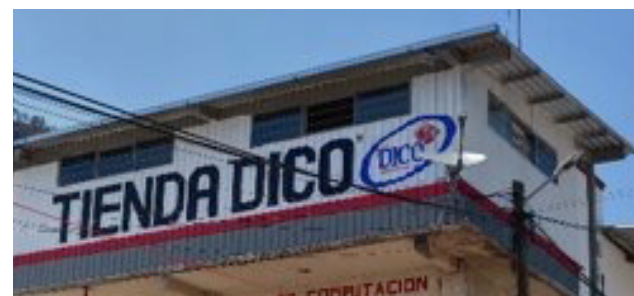

The Cambium Networks Difference

Cambium Networks is the only wireless vendor with a unified, cloud-managed wireless fabric portfolio of solutions that provides reliable, scalable, affordable and easy-to-manage connectivity that snaps in to work with embedded systems.

With millions of modules deployed, our cloud-managed, multi-gigabit wireless fabric of solutions is proven to deliver performance, security and low total cost of ownership (TCO).

This program is available to:

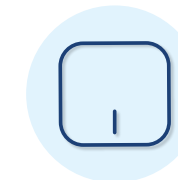

- **Mobile Network Operators** – Empower local business units to customize offers and tailor solutions to local markets.
- **Mobile Virtual Network Operators** – Enhance the value of mobile plans bundled with Wi-Fi hotspots and grow new markets.
- **Internet Service Providers** – Offer community Wi-Fi hotspots to improve commerce and education.
- **VSAT Internet Service Providers** – Distribute VSAT bandwidth to reach remote location with Wi-Fi access zones.

Getting Started is Easy:

1. Sign up to be a Cambium Networks XWF service provider at: www.cambiumnetworks.com Cambium Sales and/or Distributor will contact you to assist

2. Sign up for a free cnMaestro™ cloud management account: cloud.cambiumnetworks.com/

3. Purchase a Cambium AP at special XWF price and purchase Cambium Care Pro through distributor.

24x7 support, pre-sales evaluation setup and product support.

The Cambium Networks Wi-Fi solution

- **Zero cost to evaluate the solution.** Any service provider can sign up at cloud.cambiumnetworks.com today and start working with cnMaestro.
- **Affordable.** No cost, no license fee, no recurring fee for ongoing network management of an XWF hotspot network up to 10,000 access points.
- **Extensible to interface** with an existing OBSS software that may be in use by a service provider or network operator. Multi-tenant features, RESTful API, enhanced reporting and >10,000 device management are available through an affordable subscription fee.
- **Flexible.** Multiple indoor and outdoor Wi-Fi access points give the service provider flexibility to choose the optimal product for the use case. Wi-Fi 6 access points will be added soon.
- **Backed by technical support** and an extended hardware warranty – the best in the business. Outdoor access points include a 3-year extended hardware warranty at no additional cost.
- **Easily acquired through global distributors** with local representatives in each region. Work with the distributors that understand your business, know customers and can deliver to your expectations.

WIRELESS THAT JUST WORKS

“Facebook is committed to working with industry partners around the world to help bring more people online to a faster internet. Cambium is a critical partner with its contributions to Express Wi-Fi, SOMA technology, the Terragraph meshing solution, and the TIP program. Together, Cambium Networks and Facebook are further democratizing the power of the internet.”

Dan Rabinovitsj, Vice President for Facebook Connectivity

About Cambium Networks

Cambium Networks delivers wireless communications that work for businesses, communities and cities worldwide. Millions of our radios are deployed to connect people, places and things with a unified wireless fabric that spans multiple standards and frequencies of fixed wireless and Wi-Fi, all managed centrally via the cloud. Our multi-gigabit wireless fabric offers a compelling value proposition over traditional fiber and alternative wireless solutions. We work with our Cambium certified ConnectedPartners to deliver purpose-built networks for service provider, enterprise, industrial, and government connectivity solutions in urban, suburban, and rural environments, with wireless that just works.
